Thank you for choosing RightFiber. We provide this notice as a service to our customers and in accordance with applicable federal law and FCC regulations. It is important to us that you are informed about the services we provide, our policies and procedures, and your rights as a customer. We appreciate your business.

We encourage you to review the following information and contact us at (888) 336-4466 with any questions.

YOUR PRIVACY AS A RIGHTFIBER CUSTOMER

As a customer of a Ritter Communications company, you are entitled to know what we do with personal information about you that we receive. We consider our treatment of such information to be a part of the trust you place in us by using our Television, broadband Internet, and Telephone Services. We have updated this notice to better answer questions you may have, but our basic privacy policy remains the same. We keep only the personal information of our customers that is needed to provide our services; treat it as private, use it only for what we offer you, do not sell it to others, work to keep it secure, and destroy it when no longer needed.

RightFiber takes the privacy of our customers very seriously. Section 631 of the Cable Communications Policy Act of 1984, as amended, (the "Cable Act") provides certain protections to you, as a subscriber to RightFiber service or other services, and requires that RightFiber disclose to you the following:

- The limitations imposed on RightFiber in its collection and disclosure of personally identifiable information about you;
- The type of personally identifiable information we collect;
- How we use your personally identifiable information;
- Under what circumstances we may disclose your personally identifiable information and to whom;
- The period during which we maintain your personally identifiable information; and
- How you may access your personally identifiable information.

In addition, Section 222 of the Communications Act, as amended, provides privacy protections for certain information related to RightFiber telephone and broadband Internet access services:

- Information about the quantity, technical configuration, type, destination, location, and amount of your use of the phone and broadband Internet access service; and
- Information contained on your bill concerning the type of phone and broadband Internet access services and features you receive.

This information is known as customer proprietary network information ("CPNI").

Personally Identifiable Subscriber Information; Restrictions on Access. To provide broadband internet, cable television, and other services, we collect and maintain personally identifiable information concerning customers. That information may include name, address, phone number, social security number, driver's license number, billing records, service maintenance and repair records, premium

service subscription information, marketing information, and customer complaints. Except as indicated below under Disclosure prohibited; exceptions, all personally identifiable information is used for the normal business purpose of offering and providing cable television service and other services to you. Only persons authorized by us may access this information. Persons authorized to access customer information include our employees and sales agents, billing and collections services, accountants, and other businesses that provide products and services to us. These persons may access customer information on a regular basis. We maintain certain customer information for as long as we provide service to a customer and for a commercially reasonable time thereafter. Other customer information is periodically destroyed.

Disclosure Prohibited; Exceptions. Federal law prohibits the disclosure of your personally identifiable subscriber information without your consent, except under the following circumstances:

Business Activities. We may disclose customer information to conduct business activities related to providing cable service or other service.

Unauthorized Reception of Cable Service. We may disclose customer information to detect unauthorized reception of our cable service.

Names and Addresses to Third Parties. We may disclose names and addresses to third parties for the purposes of mailing lists, charities, and direct mail marketing, unless you notify us in writing that you do not wish us to disclose it. You may write us at any time with this request. No such disclosure may reveal directly or indirectly the cable services you view or other transactions you make.

Court Order. We must disclose personally identifiable information without your consent if we are required to do so by a court order. If we are served with a court order requiring disclosure or your cable information, we will promptly inform you before releasing any information. You will then have an opportunity to contest the order.

Law Enforcement Request. We may also disclose personally identifiable information without your consent when requested by law enforcement under certain circumstances.

Communications Preferences/Opt-out. Subscribers who do not wish to receive marketing materials, phone calls, emails or direct mail may notify Ritter at any time. You may also prohibit our permitted disclosure of your information to third parties under the Cable Act (except as otherwise required by legal process or applicable law) by notifying us in writing. You may opt-out of receiving marketing communications by telephone by notifying the calling party that you wish to opt-out or by following the automatic opt-out instructions on such a call. You may also opt-out of such calls by sending a request in writing to the address below.

Customer Proprietary Network Information. Customer Proprietary Network Information (“CPNI”) is personally identifiable information that we collect when provide you with telephone or broadband Internet access services. CPNI typically consists of telephone numbers called by the subscriber along with

the associated call duration and timing of those calls as well as call frequency and any call management services utilized by the customer. The FCC requires Ritter to notify all subscribers of their rights to restrict the use of their CPNI. You have the right, and Ritter has a duty, under federal law, to protect the confidentiality of your CPNI.

Permitted Use of CPNI. CPNI can be used by Ritter for certain purposes without your permission. Ritter may use CPNI to offer you new or enhanced services that are related to the category of services to which you currently subscribe. Ritter may also use CPNI to respond to your inquiry regarding services you currently use, or related services Ritter offers. In addition, Ritter may use CPNI in connection with repair and maintenance services, billing, and collection, and to protect company property and to prevent fraud.

Prohibited Use of CPNI. Unless you specifically authorize its use, Ritter may not use CPNI to market services unrelated to the services to which you currently subscribe. For example, Ritter may not use CPNI to offer you any type of long-distance service unless you currently subscribe to their long-distance offerings. Ritter may not share CPNI with any other company, including our affiliate companies, unless you are a customer of our affiliate.

Additional Information Regarding Your CPNI Rights. You have the right to deny or withdraw access to CPNI at any time or to instruct Ritter to disclose CPNI to unaffiliated third parties upon submission of a written request. Any approval or denial for the use of CPNI outside of the service to which you subscribe to from the company is valid until you affirmatively revoke or limit such approval or denial. A denial of your approval will not affect the provision of any services to which you subscribe.

Directory Listings. We offer our telephone customers the ability to designate their listings as non-published within print or electronic directories or directory assistance services. Because of the complexity of this process and the involvement of other entities in publishing, errors may occur from time to time. These and certain other telephone services are offered subject to tariff or contractual terms that limit our liability in the event of such errors.

INTERNET SECURITY

Taking Proper Precautions. Maintaining the security of your personal computer is an important part of protecting your own privacy and of helping us protect our network and customers' service. You should follow our Acceptable Use Policy and use and regularly update your antivirus software, firewall, wireless network security, and operating system to prevent unauthorized access by others and harm from various forms of viruses. You should regularly back up your computer to preserve your files, including email or other messages you want to keep.

Persons with questionable intent may use the Internet or email to pose as someone you trust or do business with. You should always be sure who you are dealing with before clicking on an internet link or giving personal information. To avoid all these and other forms of attacks, we encourage you to visit our website at <http://www.rittercommunications.com> or the Federal Trade Commission ("FTC") at <http://www.ftc.gov> for regular updates and tips on protecting yourself. Ritter or its Customer Care Department may take protective action related to your service or contact you directly with information from time to time to help with this effort. While we take reasonable steps to protect your services, we highly recommend that you regularly change your login password, using hard-to-guess combinations of

numbers and letters. Once communications enter the Internet, it is possible for them to be accessed by third parties over whom we have no control. Moreover, since we cannot control web sites or services operated by third parties, you should review their terms of service and privacy.
